CURRENCY TRADING CARD SET - SERIES SIX (2-PACK COLLECTOR BOX)

Celebrate a historic milestone with exclusive Cardsmiths Currency Series 6 Trading Cards, the first-ever licensed set in the series. Created in partnership with the United States Semiquincentennial Commission, this landmark release honors the America250™ Anniversary.

Influential figures, defining ideas, and iconic artifacts are featured throughout, delivering one of the most expansive checklists to date. Fan-favorite artists Mr Brainwash, Jon McTavish, Rachid Lotf, Thomas Zahler, and more return to reimagine the money, markets, and cultural forces that helped shape the U.S.

With over 120 total cards to collect, the lineup features core Collector Cards alongside dazzling Collector Parallel Rainbow Holofoils, Serial-Numbered Gemstone Refractor™ Cards, Meta-Rare Refractor™ Cards, and Double-Sided Holofoil Banknote Cards that pay homage to the art of currency itself, among many other original designs.

Look for Cryptocurrency Redemption Cards randomly inserted in select packs, redeemable for varying amounts of Bitcoin, Ethereum, Litecoin, and Dogecoin. You might even pull major hits like 1 BTC and 1 ETH.

Expand your Currency portfolio with a defining chapter in the evolution of economics.
