GAME INTRODUCTION

"**Marvel Rivals**" is a next-generation hero shooter PC game developed by NetEase under official license from Marvel.

The story revolves around a fateful clash triggered by Doctor Doom: The ruler of Latveria, Doctor Doom, and his counterpart from the year 2099 engage in a fierce battle for cosmic supremacy. This conflict causes countless universes to collide and merge within entangled timelines, giving rise to new worlds and crises. Now, once-familiar faces have turned into enemies, while former foes have become the mightiest allies in this chaos...

The narrative will unfold season by season, with each update introducing new superheroes or villains to the battlefield, along with more challenging maps.
